

## Season 3 Episode 10

## Demons from the Orangiverse

Jason is lying on the couch and watching TV and he quickly switches through the different channels. Jason stops at a DDD News report. A large caption on the screen reads, "Orange Soda Shortage." George Ferrier is on the screen and he said, "Hello, I am George Ferrier here with DDD News. A major orange soda processing plant has caught on fire and has burned down to nothing. This plant was responsible for the majority of the orange soda that is produced in the modern developed world. Grocery stores and convenience stores all over the world are dry of orange soda and avid orange soda fans are outraged." A fat guy dressed as a king and is decked with orange soda cans said, "How could this happen? Orange soda was the one and only thing I liked more than life itself." He cries and sobs into an empty crushed orange soda can. George said, "Bottomline, there is no more orange soda left in the world so suck it up orange soda guzzlers." Jason's eyes go big and his mouth drops open.

Mason is in his lab looking over some technology and a portal opens and Ultraverse Keith enters Mason's lab. Mason said, "Keith of the Ultraverse. What brings you here this time?" Ultraverse Keith said, "I nabbed this off some villain in the Ultraverse that was creating his own universes to use as power sources so he can conquer the Ultraverse. I managed to defeat the madman and I grabbed his kit that he uses to create universes. There is no safe place for this anywhere in the Ultraverse so I am bringing it to this universe to this lab where it will be safe. You may want to study it. It can help you build an understanding of how your universe came to be." Ultraverse Keith steps back into the portal and returns to the Ultraverse. Mason looks over the universe building kit.

Jason frantically goes through empty orange soda cans in the house and Jason said, "Surely there must be some orange soda left in this place." Jason finds an orange soda can that still has a few drops of orange soda left in it. Jason grabs the can and pours the last few drops into his mouth. Jason said, "Goodbye ole chum. I guess I am never seeing you again." Jason enters Mason's lab and he sees Mason looking over the universe building kit. Jason said, "The world is without orange soda and I don't know what I can do." Mason said, "I am sure this really is devastating national tragedy." Jason points to the universe building kit and he said, "What is that?" Mason said, "This is a universe building kit. Ultraverse Keith paid a visit to this lab earlier today and left me with this. He snagged it off some villain in the Ultraverse that was using this to make universes for his own benefit of ruling the Ultraverse. Anything can theoretically be produced from these homemade universes." Jason thinks to himself and he said, "Produce anything?" Mason studies the instructions and then he heads off to bed as it is late at night. Jason sneaks into Mason's lab and he takes the kit to his bedroom. Jason reads the instructions and Jason said, "How hard could making a universe of orange soda possibly be?" Jason follows the complex instructions and he sculpts and forms a sphere that is light orange with darker orange streaks in it. Jason reads through more complex text. Jason said, "These instructions are littered with lore. It mentions things about demons. This is mostly nonsense. I think I got to the good stuff." Jason reads a section and Jason sets up a device that allows him to alter the contents of the universe. Jason said, "It looks like I can enter the universe."

Jason enters the new universe with a device he just made and he uses the device to create a large habitable landmass. Jason creates large ancient Greek-like structures and fountains that have orange soda flowing from them. Jason takes out a gold chalice and he fills it up with orange soda from the fountain. Jason takes a drink and Jason views himself in some heavenly realm where he is the king and he rules over people made from orange soda. Jason said, "Why am I only thinking this? I have the power right here to make this happen." Jason builds his universe into an orange soda lovers utopia filled with orange soda people and orange soda fountains and everyone worships Jason as if he were a god. Most buildings contain statues with carvings of Jason. Shrines of Jason are built everywhere. In all this orange soda, mythical beings comprised of orange soda emerge in a lake of orange soda and they rip through the universe and they make it outside into Jason and Mason's universe.

People go about their day-to-day things in San Francisco and the orange soda mythical beings suddenly rise over everyone. The leader of the orange soda demons said, "You pitiful humans go about your day-to-day work working for only yourselves. I will give you something better to work for." The demons flood the streets with orange soda. They use orange soda to create strong plasma barricades and they trap everyone in the city. People panic and they are captured by the demons and placed in a newly made orange soda palace. The police chief goes to a phone and calls the army. The army sends their jets to San Francisco and they dogfight the orange soda demons. The orange soda demons drench the flying aces with orange soda and their planes get destroyed.

Mason leaves his lab and he looks up and he sees the sky is orange and he sees the evil demons flying around and capturing people. Captain Fusion drives the Fusion Mobile in front of Jason and Mason's house and he said, "Mason. Get in." Mason gets in the Fusion Mobile. Captain Fusion drives through the city and he said, "Mason, do you know what is going on?" Mason said, "I have no idea?" Captain Fusion said, "My readings tell me that these things are mythical creatures from another universe. It seems odd that these things would spontaneously emerge out of nowhere and rule over us. I guess that's just how it is. Sometimes the greatest evil forces in the world emerge out of nowhere for no apparent reason." Mason said, "I did get a visit from Ultraverse Keith recently and he did give me a universe building kit that he said was used to rule the Ultraverse since it had an immense amount of power and... Jason must have done something with it." Captain Fusion said, "I need you in my lair now. We need to come up with a way to stop these demons before they rule..." The demons start shooting orange soda at the Fusion Mobile and Captain Fusion quickly swerves around the blasts. The demons begin to lock onto the Fusion Mobile and they rapidly flood the streets. A huge surf of orange soda is formed and the Fusion Mobile is right in front of it. Captain Fusion uses the turbo boosters on the Fusion Mobile and the surf keeps gaining on them. The surf overtakes them and the Fusion Mobile gets caught in the surf and is washed around and is smashed into a building. The Fusion Mobile gets beat up and destroyed and Mason and Captain Fusion swim out into the orange soda.

Mason and Captain Fusion swim to a rooftop and the demons are there. They fly around Mason and Captain Fusion. They get close and Captain Fusion punches one of them and it explodes into soda and it forms back into itself and it traps Mason and Captain Fusion. Mason and Captain Fusion are brought to a magical orange soda palace in the sky. A demon is armed with an orange soda cannon turret and he looks down at the San Francisco civilians that are now slaves that are pushing a large heavy wheel in the middle of a large room. The demon sees Mason and Captain Fusion and he said, "Ah, more acquisitions. I always like it when more people join. Your job is simple. Just push that

wheel in the center. Mason said, "What's the point of this?" The demon said, "There is no real point. Our great leader likes it when people work for pointless things. Entertaining our leader is your main and only purpose in life is it not?" The demon brings Mason and Captain Fusion the wheel and they begin turning it. Mason said, "How do you think we will get out of this one?" Captain Fusion looks around and he sees the demon is watching over the wheel and he has a large orange soda cannon. One of the slaves tries to escape and he runs from the wheel and the demon open fires on him and the slave gets blasted so hard that he turns to nothing. Mason said, "I never would have guessed that orange soda can be quite powerful." George Ferrier is one of the people pushing the wheel and he said, "Just the other day I was reporting on an orange soda shortage but now it looks like we have an orange soda overage." George gets a small blast from the cannon and the demon said, "Cut the chatter."

Captain Fusion spots a door that opens and orange soda demons enter and the door stays open until they close it. Captain Fusion said, "That door over there opens from time to time. He only seems to have one cannon. Surely he cannot target more than one person at a time. I will distract him while you try to run out the door. You need to get to the lab and get to the universe Jason made. I bet that is where he is." Mason and Captain Fusion keep an eye on the door and it opens and demons enter. Captain Fusion gives the signal for strike now. Captain Fusion stops pushing and he tries to run away and he gets blasted by the orange soda cannon. Captain Fusion keeps getting blasted and he keeps resisting. Mason runs off and he is about to exit the opened door and he gets stopped by the lead demon. The lead demon grabs Mason by his head.

The lead demon takes Mason to an office where everything is orange and has orange soda flowing through it. The lead demon said, "Mason, you are quite an interesting fellow. You have a much better premise working here than anything you did before. I can offer you a lot. Why must you leave?" Mason said, "You know why I tried to escape. This place is mind numbing. May I ask what your true intention is?" The lead demon said, "What do you mean?" Mason said, "You say this is all a form of 'entertainment', but something tells me there is more to this than what meets the eye. What is your real deal?" The lead demon said, "You seem like someone that is smart and mature and can handle the truth. I guess I will tell you the truth. For thousands of generations, us demons have lived in blank and empty universes in the Ultraverse. We only get power when someone creates a universe in those blank universes. We take power from what the created universe makes us. I have taken the form of dragon masters, weapon masters, battle robots and now, I am this. The universe was constructed from orange soda so naturally, I will take the form of a demon made from orange soda. Everything you see here is made from the same thing. We see you have a lack of orange soda so I guess you can say we came here to show you the way. I understand that you think you are better than everyone else because you are smart and have your own lab but that is merely all an illusion. You are really just the same as everyone else." Mason said, "I am not like everyone else. Our world is filled with injustices and wrongs and none of that would exist if everyone was like me but..." Captain Fusion punches through a wall and soda pours everywhere. Captain Fusion punches the lead demon and he explodes into orange soda and he leaks into the office. Captain Fusion said, "Mason, I figured out how to break out of this place. This place is made out of soda and it seems like it can be broken down by my fists." Mason said, "That's good. Now we need to get everyone out of here and..." Captain Fusion punches down an exterior wall showing the outside and they are high in the sky. Mason said, "We can use my mech to get out of this." Mason goes to his watch and he activates his robot mech. Mason and Captain Fusion wait for the mech to show up while the lead demon reassembles himself and more demons show up. The demons are about to attack

Mason and Captain Fusion and Captain Fusion said, "There isn't time. I know how that mech of yours works." Captain Fusion grabs onto Mason's arm and they jump out the broken wall and they fall through the sky. Mason's mech zips by and collects Mason and Captain Fusion.

Demons fly around Mason's mech and Mason puts the mech into overdrive and he plows through the demons and he zips to Jason and Mason's house. Mason lands the mech and Mason said, "I bet I know where Jason's universe is." Mason and Captain Fusion go to Jason's bedroom and they see the large marble with ripples of different shades of orange flowing through. Mason touches the marble and Captain Fusion does the same and bright light is formed and they appear in Jason's orange soda universe.

Mason and Captain Fusion are on a street that looks like ancient Greece and people made from orange soda go about their business. Mason said, "We need to find Jason. He is probably in that tower up there on the highest floor of the tallest tower where he can see everything. I had to adapt my mind to Jason's mindset for a second there." Mason and Captain Fusion observe the streets and they see sculptures of Jason and people worshipping Jason. There are fountains everywhere of Jason and the fountains shoot orange soda. Captain Fusion said, "It looks like a fantasy may have gone too far." Mason said, "This may be a result of Jason's distressed mind from the lack of orange soda."

Mason and Captain Fusion enter the large building and there is a receptionist that closely resembles Pamela and she is made of orange soda. Mason said, "We are here to see Jason." The receptionist said, "Really? Not just anyone can see our god." Mason said, "Well, he's going to see us. The matter is urgent. Our entire universe is at stake and..." Buff guards show up and they crowd around Mason and Captain Fusion. The lead guard said, "It is off to the looney bin for you two." Another guard said, "Look. One of them is dressed like our god but with a lower budget and he is with a guy dressed in black and red tights. We have never busted anything like this before." Mason and Captain Fusion give each other a look and Mason pulls out his boxing glove on a coil and he punches down one of the guards and he falls to the floor. Captain Fusion punches down one of the guards and he fights off the other guards. More guards with heavier gear show up and Mason and Captain Fusion continue to fight off the guards.

Jason dressed in luxurious robes walks down the stairs and he looks over the action. Mason said, "Jason! We need your help." Jason said, "Back off guards. These people are friends of mine." The guards release their grips on Mason and Captain Fusion. Jason said, "Why must you visit this humble universe of mine?" Mason said, "In our universe, demons made from orange soda have invaded. They have imprisoned the people of our city and possibly other cities and they are ruling the world. The army couldn't stop them. Captain Fusion tried to stop them too but these demons are too smart for our plans. The lead demon told me they are made from the substances of the universe they spawn from and they spawned from this universe which consists primarily of orange soda. They have characteristics from this universe since you made this universe. Only you can save our universe from these orange soda demons. This is your chance to come out as the ultimate hero. Isn't that the other thing you always wanted?" Jason thinks and he imagines himself as an orange soda-based superhero that fights against mythical demons and he defeats them with orange soda and everyone loves Jason and he hands out orange soda to everyone and he cracks one open himself and he drinks it. Jason said, "It sure is."

Jason wears an orange superhero suit and he stands in front of orange soda people as army men. They are all out in lines on the street. Jason said, "Now hear this. We are going to fight one of the worst demons that has ever disgraced our almighty Ultraverse. This is our fight for our freedom and to finally achieve justice for everyone. I think everyone gets the picture so we will go and fight." Jason leads the armies and Mason and Captain Fusion are among the troops in the armies. They march into a portal which leads to Jason and Mason's universe.

The troops march out in the orange soda drenched streets of San Francisco. Orange soda demons spawn everywhere and the troops fire on the demons. Mason and Captain Fusion take Jason's side and Jason said, "Where is this, evil force?" Mason points to the prison in the sky. Jason said, "High in the sky. We will go up there and fight them." The lead demon goes to the streets and he said, "That won't be necessary. Why go up there when I can finish you down here?" Troops open fire on the lead demon and he deflects all the blasts from weapons back at the troops. The lead demon heads for Jason, Mason, and Captain Fusion. Jason uses rockets in his feet to jump and kick the lead demon in the face. Orange soda resembling blood flies off his face. Jason smacks the lead demon downwards. The lead demon grabs onto Jason's leg and he throws Jason around and smashes Jason into buildings. Mason takes out a large blaster rifle and he shoots a blast at the lead demon and it makes a hole in the center of the demon's body. The demon smashes Mason into the road. Captain Fusion jumps and he punches the arm that is holding Jason and Jason is set free. Jason uses the rocket boosters in his feet and he zips through the demon one way and he zips through the demon the other way and he does that several times over. Particles of the orange soda demon form back together. The lead demon said, "Face it. I am immortal. There is no way you can realistically trap me." Mason said, "That's it. Keep doing it Jason." Jason keeps zipping through the demon back and forth. Mason and Captain Fusion run away and Captain Fusion said, "What's the plan this time?" Mason said, "These demons were defeated in the Ultraverse and they were contained in the universe marble. If we can get Jason to trap the demons in the marble and then destroy the contents of the universe, we may be in the safe." Mason and Captain Fusion get the marble and they bring it back to the battle. All of Jason's troops have been defeated and demons are everywhere.

The demons surround Jason and Mason, and Captain Fusion. Mason throws the marble to Jason and Mason said, "Trap him in this." Jason grabs the marble and he tries doing things with it and nothing is working. The lead demon said, "We are smarter than that." The demons pound down on Jason, Mason, and Captain Fusion. The demons drench the heroes. Jason opens his mouth and he drinks the orange soda being used to drench them. Jason said, "This is all orange soda. I love orange soda." Jason jumps and he takes out a straw and he sticks it into one of the demons and he drinks them and the demon is gone. Jason hovers over the battle and he targets the demons and he drinks them. The lead demon charges into Jason and Jason dodges the lead demon and Jason sucks up the lead demon.

The next day, street cleaners wash the streets and they clean up the debris. George Ferrier appears on the screen and he said, "Hello, I am George Ferrier here with DDD News. Our local hero, Jason has put up a fierce fight with the orange soda demons that plagued the city and now the city is safe from these demons for at least the foreseeable future. The orange soda draught appears to have ended. Jason managed to utilize all the orange soda made by the demons into an orange soda supply that can be canned and sold. This is a perfect time for orange soda fans to rejoice."

Jason has a large walk-in pantry filled with crates of orange soda. Jason said, "Never leave me again." Jason puts a padlock on the door to the pantry and he locks it and he places a computerized password lock on it too. Jason takes out a hand-sized tub of orange soda and he sits at the TV and watches TV. Mason is in his lab observing the orange soda universe. A portal to the Ultraverse opens and Ultraverse Keith enters Mason's lab. Mason gives Keith a stern look and Mason said, "I know why you are here. You want this." Mason shows Keith the universe Jason made." Ultraverse Keith said, "I always keep watch on this universe. There is something unique about this universe that makes it stand out from the others. I heard about what Jason made. It was a unique idea and it is perfect concrete proof that this universe cannot be trusted by anyone. I must put it in the most remote reach of the Ultraverse I can think of. It is not safe with you or with anyone in any universe. I know just where to keep this." Mason gives the universe to Ultraverse Keith and he takes it into the Ultraverse portal and leaves Mason's lab."

Ultraverse Keith pilots monk starfighter through Ultraverse space and he lands it on a remote ice planet that resembles Pluto. Keith walks into a dark and icy cavern and he places the marble in a tight frozen space around icy rocks. Keith leaves the planet. Some odd creature pops up from behind a rock and rubs its hands over the universe.
